

Universal cell phone charger for car and Notebook

With the new, universal charger "Input" from DICOTA, mobile phones and PDAs can easily be charged when on the go. Thanks to 6 individual tips, "Input" is compatible with almost all common mobile phone and PDA models. The tips with a patented, innovative technology ensure a simple charging process of Nokia, Sony Ericsson and Motorola cell phones. They can easily be swapped, depending on the phone to be charged. For in-car use, the charger is simply connected to the cigarette lighter or 12V socket. An additional feature of "Input" is that you can charge devices with your Notebook as well, using a USB to mini-USB jack, thus offering a maximum of mobility and flexibility. The self-retracting cable can be adjusted to the desired length at all times and makes for clean cabling. "Input" is shipped with a user's guide.

Special tips with patent technology. charge with either cigarette lighter socket or Notebook. compact with self-retracting charging cable. 12-24 V DC car cigarette lighter socket or USB port. retractable USB Cable. 5 cell phone tips included (2x Nokia, 2x Sony Ericsson, 1x Motorola). 1x mini USB. user's guide.
